

I would like to comment on your proposals which I broadly support.

I am based in the UK and I am an INED on 3 public boards (FTSE 350, US SEC and UK GDR) a private company preparing for IPO and a trustee of an International NGO.

The responsibilities, risk and time commitment on each are roughly similar - indeed the private company is arguable more time consuming. I do not think that you should exclude such responsibilities from your requirement, as each role does have an impact on the other. The NGO and the Private Company both disclose publicly the roles of each of the Directors/Trustees, so it is not that they are not easy to find.

Regards

Michael
